expect offering you with outstanding solution and diverse alternatives for several years ahead.

REVIEW OF HEALING THERAPY WITH MAGNETS

- Sorry Cornwell, but Temperance Brennan is a lot better of a character than Kay Scarpetta. In Kathy Reichs's novels there are no soap opera whining periods like Cornwell likes to do. Dr. Tempe is on the hunt for a killer who burned down a house in Quebec. There were four people inside the house, all burned alive. As Tempe investigates, she is greatly disturbed to discover a possible "cult" connection. In this fast-paced novel of thrills and murders, Reichs takes readers on a hunt from Quebec, Canada to North Carolina to try to stop this group of evil cult members before they kill again. The only part that I didn't like about this novel was that in Tempe's free time, she investigated a century year old remains of some religious member at a local church.

That part could have been cut of the novel. Overall, "Death Dejour" is a worthwhile read!

- Hydra Head is a mystery story, an immersion into a corrupt political world, and an exploration of different kinds of attraction between man and woman. Surprisingly, Fuentes in the latter part of the book ties up all the loose ends of the complex mystery. However, neither the characters, nor their motivation as it relates to the Mexican oil reserves, are realistic. The characters probably are not meant to be entirely realistic, Fuentes is more interested in their impact on the reader, and I was OK with most of them, Felix's spymaster/friend being an exception. Still, I wish the strategic interest in the exact amount and location of the oil reserves made more sense; e.g. reserves do not help alleviate shorter term oil shortages, unless they are in a place like Saudi Arabia where production can be ramped up quickly. The motives for the attack on the President made less sense to me than would a simple desire for more power. Despite that, "Hydra Head" is an interesting, powerful novel.
