Business startup advice from the former president of the Ewing Marion Kaufmann Foundation and cofounder of Global Entrepreneurship Week and StartUp America, this “thoughtful study of ‘how businesses really start, grow, and prosper’...dispels quite a few business myths along the way” (Publishers Weekly). Carl Schramm, the man described by The Economist as “The Evangelist of Entrepreneurship,” has written a myth-busting guide packed with tools and techniques to help you get your big idea off the ground. Schramm believes that entrepreneurship has been misrepresented by the media, business books, university programs, and MBA courses. For example, despite the emphasis on the business plan in

most business schools, some of the most successful companies in history—Apple, Microsoft, Google, Facebook, and hundreds of others—achieved success before they ever had a business plan. *Burn the Business Plan* punctures the myth of the cool, tech-savvy twenty-something entrepreneur with nothing to lose and venture capital to burn. In fact most people who start businesses are juggling careers and mortgages just like you. The average entrepreneur is actually thirty-nine years old, and the success rate of entrepreneurs over forty is five times higher than that of those under age thirty. Entrepreneurs who come out of the corporate world often have discovered a need for a product or service and have valuable contacts to help them get started. Filled with stories

of successful entrepreneurs who drew on real-life experience rather than academic coursework, *Burn the Business Plan* is the guide to starting and running a business that will actually work for the rest of us.

Electronic Inspection Copy available for instructors here Providing a much-needed critique of Corporate Social Responsibility (CSR) practice and scholarship, this book seeks to redress CSR advocacy, from a political and critical perspective. A strident approach backed up by extensive use of case studies presents the argument that most CSR-related activity aims to gain legitimacy from consumers and employees, and therefore furthers the exploitative and colonizing agenda of the corporation. By examining CSR in the context of the political economy of late

capitalism, the book puts the emphasis back on the fact that most large corporations are fundamentally driven by profit maximization, making CSR initiatives merely another means to this end. Rather than undermining or challenging unsustainable corporate practices CSR is exposed as an ideological practice that actually upholds the prominence of such practices. As CSR gathers momentum in management practice and scholarship, students in the fields of CSR, business ethics, and strategy, will find this text a useful companion to counter received wisdom in this area.

REVIEW OF ENTREPRENEURSHIP BUSINESS MANAGEMENT N6 QUESTION PAPERS

- As a regular attendee to University of Michigan football games i can tell you

that in Ann Arbor, MI, Tailgating is a religion. The spreads that some people lay out are fit for an expensive buffet. This great book contains some 90 plus recipes that run the range of the very simple such as beer brats, burgers and ribs, to exotic seafood dishes, and everything in between including dips, salsas, salads (the Chinese noodle salad is wonderful!), drinks, and desserts. There's also a great recipe for Philly cheesesteaks. Joachim not only includes recipes but full menus, tips for planning your tailgate including ingredient checklists, tips for eating healthy at the tailgate (even if that seems to be a contrast), and information about choosing the best cooking and storage equipment. All in all a very complete guide to tailgating.

- No one should buy this translation without first checking out the original version made in 1962 with the help of the author and in print since 1981. An updated version of this was published in 1997 as *Children of Gebelawi*. The reason why there are two published versions is that after the threats to Mahfuz's life made in 1989 in the wake of the Rushdie affair, because of this novel, the translator (and author of this review), P J Stewart refused to sell his copyright to Doubleday for a world-wide relaunch, considering it more prudent to continue quietly publishing with the original American publisher, now renamed Passeggiata Press. The unsuccessful attempt on Mahfuz made in October 1994 confirmed the wisdom of this decision. The American University of

Cairo Press, which owns the world rights, then commissioned Peter Theroux to make a new translation. However, Passeggiata continued to have the US paperback rights, which had been granted to it in 1981 (and in apparent violation of which Doubleday has published its paperback in the USA). As the translator of Children of Gebelaawi, I cannot decently comment on the quality of Theroux' version. Some people may like his use of English, which does not appeal to me. I have found various gross errors of translation of the Arabic, but no doubt a careful study of my version would find similar mistakes; neither of us is a native Arabic speaker. However, it does worry me that in some places he has made a mistake that was in my 1981 edition and which I have since corrected;

at least one of these is such an improbable 'howler' that I cannot believe he did not use my translation. Theroux' version lacks an introduction, and I consider this a grave lacuna. The history of the book is deeply interesting in itself and needs to be told. The novel also needs some explaining: why did Mahfuz, the deep psychological observer, write a book so apparently lacking in subtlety; and what is the secret message of the book? All this is tackled in the extensive introduction to Children of Gebelaawi. One more point: Theroux, like all other translators, uses the Arabic text published, without the author's participation, in Beirut in 1967. It is full of typos, but also - mysteriously - it includes words and whole sentences missing from the original Egyptian

serialization, suggesting that the publisher had access to the missing manuscript. Children of Gebelaawi is the only version in any language to be based on both the source texts.
