Keep in mind, checking out reviews can help you make educated choices regarding what to check out following and can subject you to brand-new writers and genres you could not have actually considered in the past.

## REVIEW OF MARTIN SILBERBERG CHEMISTRY 6TH EDITION

- I am a huge fan and relative of Herb's writings. He has a true gift for the written word and I have enjoyed all of his books. Herb, my prayers and thoughts are with you during these very trying times. I am thinking of you incessantly and the entire family prays for you daily. Godspeed.
- The first half of this book is devoted to demolishing destructive views of God. Phillips can be as unsparing at this as Nietzsche or Feuerbach. Especially shocking is his section entitled "Pale Galilean." The second half of the book attempts to reformulate the Biblical view of Jesus and to make his sayings palatable and comprehensible to modern readers. Some readers may feel that Phillips "tames" Jesus's hard sayings to the point that they become unrecognizable. On the other hand, for those who are looking to escape from fundamentalism into a more liberal version of Christianity, this book just might be the key.
