## REVIEW OF PHYSICAL CHEMISTRY CASTELLAN SOLUTION

- The book, Waiting for the World to End was a real attention getter. It was like I couldn't put the book down, I always wanted to know what was going to happen next. I thought the plot was very well written and I was able to relate to certain parts of the book. The fact that Tom had a pseudo family because he was searching for what he couldn't get, made the book even more fascinating. Also since the story had Indiana as one of the settings added to the intrigue of the book. The part I liked best was the ending because it left a few doors open and inspired you to imagine what would happen later in their lives.

- Having read Theology for Beginners, this book takes those ideas and expands them further. Not an easy read, but so worth the effort.
