## **REVIEW OF PRE ALGEBRA SEMESTER 1**

## **PRACTICE EXAM A**

- Lost Horizon is the best book i've ever read.The story begins with a man named Rutherford tell a story about a man named Conway, who had been a past school mate of his. Rutherford had found him in a hospital by chance and Conway had amnesia.Rutherford had took him out of the hospital and they took a ship out of China. During their trip Conway regained his memory and began to tell Rutherford about this amazing journey he had been on.

- I found this book to be "user friendly." I am a college professor and am using this book to teach an upper division under grad course. It covers a great deal of material in a thorough and manageable system. The case study of Stan, which is used throughout the book, gives a practical demonstration of the theories and techniques that Corey is presenting.
