REVIEW OF U S EXPERIMENTAL PROTOTYPE AIRCRAFT PROJECTS FIGHTERS 1939 1945

- This is one of the classic "debunking" books of all time. The trouble is that the author avoids the truly mystifying and well, lies. Don't believe me. Google the author and the book before buying. To those of you who NEED for there to be an easy answer it won't matter, you'll buy this book anyway.
- I can't will myself to finish this book! After reading the reviews, I have decided to put this one down. What I found so interesting is that most of the negative reviewers had only rated this or maybe one other book. Perhaps they felt as strongly as I do (as I have never written a review before) that this book is a waste of time you NEED to tell someone????
