REVIEW OF PARALLEL LINES AND ANGLE RELATIONSHIPS PREK 12 HOME

- Everything was smooth and perfect! Condition is excellent, just like new, but about 99% off a regular price! Couldn't have asked for anything better! Shipping was very expedient! I would recommend the seller to everyone!

- I seldom post reviews. However this book is so tedious, that I have to say that I'm sorry I bought it, and I no idea why it is so highly rated. I didn't see the tv series, so that must have been better. Even 12 years of post high school education doesn't help me enjoy this, and although the writing is somewhat colorful and descriptive, it doesn't make me care about any of these people. A story about an alcoholic, lots of description, where not much happens for many, many pages, a very slow soap opera; Thankfully it's not too long.
