Keep in mind, reviewing evaluations can help you make informed decisions about what to review next and can subject you to brand-new writers and styles you may not have actually taken into consideration in the past.

REVIEW OF ANTI POLLUTION CONCEPTS ACTIVE CONCEPTS LLC

- This book has to be the best of the "Cat" series. The main man in the book, Cat, makes you want to love him, slap him, and then cry for him. Moving and so full of twists and turns it leaves you hanging word for word 'till the very end. A MUST for any sci-fi fan.
- The first thing I think everyone will notice is that the book is well organized into sections. The front of the book starts with basics that might be very repetitive to most of us, but will be a good place for those who are just learning about earth-based religions and have gotten past the "look I'm a witch!" stage. The back sections of the book contains some astrological moon phase info for spell work, spells and hex magick. (Note: Hex magick does not pertain to Curses, this is where we could probably use a

better definition to correct misunderstandings on the meaning) This does seem to run more along the lines of powwow magick maybe a little scandinavian in symbolism, at least that is my impression of it. Not really my cup of tea but everyone has different tastes. The information that was in the middle seemed to interest me more than the front of the book or the back. The information on the Wedjat eye was very interesting and even after cross referencing seemed to stand up to be more accurate than not. The majority of the book is intended as reference and clearly not suggested as the only source for you to gain information. There are some areas that I find the wording used to explain some things to be a little unclear, but not intentionally so. It is not always easy to express beliefs and concepts that are clearly not well understood by mainstream society. However, a more wordy description may or may not have helped in explaining things better but most readers would find it too wordy and find

fault in that approach. I didn't find any conflict with the love spell as it was not directed at causing anyone in particular to love you... it was just to draw love that had potential to be lasting... couple it with more astrological information than you would find here it could be likely to have a positive result. I think that releasing love of the "it's over spell" to be suggestive that you had control over love and I think that this could be handled better. However, off hand this is the only one that I can really say I had a real problem with. Overall, I feel that this is a good reference book, not as bad as some would have you believe, Not the corner market either, just another alternative. Some new stuff not seen in other books and a collection of some basic stuff that may have required several books to get all of what is inside of this one. It can also help give you a start on ideas of other topics you would like to look deeper into. Contains more than Scott Cunningham's "Living Wicca" and "Wicca" does and yet covers all the same ground and then some.
