### **REVIEW OF FRIGIDAIRE FREEZER ELECTRONICS CONTROL GUIDE**

- Again, I could have sworn that I had ordered a hardback copy of this book, I received a paperback. The book came neatly and carefully packed. Its condition was mint as far as I am concerned. In

addition to its expert packing, it came in just as expected. I am completely satisfied with this company and will continue to do business with them. As for the story itself, currently this book. I have just finished reading "Heretics of Dune". I am very much enthralled by this series and though I read "Dune" many years ago. I was not aware of the follow up books being this good. I had tried the next 2 books in the series and was not impressed. However, after reading the latest series of pre-Dune books. My interest has been re-awakened.

- I thought that the book was ok. I like sci fi books but this got to deep and intense. I enjoyed the book at some points. Like when Jessica became the revrend mother and she was pregnant and her daughter got all the memorys too. And every one thinks that she is a streange child. I like the idea that she killed the Barron. You dont see many 3 year olds doing that. I thought that the book was ok for being a sci fi book. But I dont think that I will continue on with the other novels. Thank you. Francie
