REVIEW OF MANUAL AUDI BNS 5

- This book was laid out very nicely and covered all the topics a developer needs to know in order to create Internet-enabled applications. And I agree with the other reviewers that it may be the best book on WinInet (isn't it the ONLY book?), can be used as a reference guide, and the asynchronous section was insightful. However, for a developer who is trying to take these APIs in a new direction (really do some hard-core ATL with C++) with COM, I found the book a bit lacking. [Admittedly, this book was focused on applications, not objects]. I needed more information about creating UI-less COM objects and perhaps I was looking for this book to do more than it claims. For example, the pre-IE5 WinInet API set doesn't support UNICODE and that information is key to C++ COM developers. Definitive Guide? Not quite. If you're looking to do some hard-core COM development with WinInet, I'd stick with the WinInet Reference on Microsoft's site, grab a good ATL reference and go from there (especially if you're someone who can pick up a new, relatively small API set quickly. There's really nothing to WinInet). If you're just using VB to create your COM objects or application, then this book is a good resource.

- Mossflower is an excellent addition to the Redwall series, and pretty soon my copy's going to fall apart; I've read it WAY too many times! I enjoyed reading this book for several reasons. First, it's exciting! The battles are in the right places, they're never drawn out, and they will always find a way to shock,

amuse, or effect you. Second, the plot is an excellent and genuine find. It's not the same old, same old, plots that have found their ways into books. It's fresh. Third, it has Martin the Warrior in it. He's my absolute favorite character of all, and any book with him is fine by me. SUMMARY: For a long time, the peaceful land of Mossflower and its inhabitants were under the claws of Verdauga, King of a Thousand Eyes and a wildcat tyrant. When he falls ill, however, he passes on the ruling to his far crueller daughter Tsarina. The peaceful woodlanders begin leaving the settlement as the evil wildcat demands more and more tribute to the wildcat fortress, Kotir. Because of this, Tsarina declares a war on the woodlanders, knowing that she would have to weed them out before Kotir falls into famine (the soldiers are no farmers!). Just as things look pretty bad for the woodlanders who know little of war, a young mouse hero who was witnessed to beat up a patrol "single-pawed" (as in, weaponless) comes along. This hero, of course, is Martin. Soon, the woodlanders find a new hope. They are convinced that if they could contact Boar the Fighter, the badger ruler of Mossflower, they could defeat Tsarina and her vermin horde. Bella, daughter of Boar the Fighter, calls upon Martin (who is accompanied by his friends Gonff the Prince of Mousethieves and Young Dinny the mole) to go to Salamandastron to seek out Boar the Fighter. In the end, however, it is brave, fearless, heroic (I'm naming a few of Martin's good traits. There are way too many!) Martin the Warrior who comes to battle Tsarina! I won't say anymore. I don't want to ruin it for anyone who hasn't read it! Anyway, read this book. It's excellent. The other Redwall books are excellent too, and I'm

anticipating the arrival of "Triss" and "Loamhedge" in bookstores.
