REVIEW OF HOTEL MANAGEMENT SYSTEM REQUIREMENT SPECIFICATION DOCUMENT

- In this book Lois Lowry introduces the fascinating concept of people living in a world of sameness. When twelve year old Jonas receives his job assignment as the community's Receiver the Giver introduces him to a world he never knew, a world of color, music and birthdays. Jonas wants the people of his structured community to experience feelings, and choice. And maybe with the Giver's help he can do it. I highly recommend this book, it combines exceptional writing with a fascinating concept, and it really makes you think

- The Giver by Lois Lowry is a very opinionated book. Different people will think different things about the book and I think there are too many choices to make at the end of the story. In The Giver, a child named Jonas is getting his new `assignment' for his life and he just happens to get the `Receiver of Memory'. He then must receive memories of things that other people in the community do not know. In the Giver, Lowry tried to make some sort of Utopia (Perfect World) and wanted to show that this would probably never happen and that this world might be perfect but there are still some flaws in it. The author also tries to show that our world also has flaws. I think the author tried to go too far into the future because it might be a long time until we invent or do things [are bad] as: people come and take your dishes at night, when you get hurt or have pain, they bring a pill to you and the pain just goes away. I believe this book should not be intended for children or young adults, I think it should be for people 14 years and up. This book should not have been made for everyone because it shows a kid that committing suicide will get you out of a problem or a bad situation. This book haunts me in my sleep and I am 12, I'm not scared of hardly anything but this book scared me. Just think about it, would you want your child to be reading a book where a 12 year old washes and cleans an elderly person? Would you want your child to be reading a book where somebody injects a baby in the head with some sort of liquid? Would you want your child to be reading a book where a boy dreams of bathing a girl in his sleep? If I could, I would ban this book in any library or store. Because of these reasons, I give The Giver one out of five stars.
