REVIEW OF ASTRONOMY THROUGH PRACTICAL INVESTIGATIONS NO 14 ANSWERS PDF

- I thought I was getting the book in the description the tale of a women stealing a baby she once thought was dead. It is and it isn't. It's really hard to put into words what The Upper Room is about because I am/was so confused. Instead, of a heartfelt story about a women wanting a child so much that she is willing to steal her best friends baby, The Upper Room is about a crazy, overweight serial killer, who just happened to steal the baby girl she always wanted but never had.I had gotten to less than 100 pages into the novel when I wen back to re-read the description. I even went back and re-read the reviews, just to see make sure I was reading the right book. After reading the reviews, I figured that somehow I wasn't getting it. Everyone else seemed to think this book was funny. The star rating was 4 and above. I wondered if Mary Monroe was using some form of satire that was just going over my head. I did not find this book funny or even mildly entertaining.The main character, Mama Ruby claims to be a God fearing, Christian with the devil on her coattails. In reality, the devil is on her left shoulder with direct access to her whenever he wants it. She kills people (lots of them) needlessly with out not provocation. If someone wants to collect a debt she kills them, if someone calls her a name she kills them. She kills anyone and everyone, claiming that they were trying to rape her and she had to "chastize" them. She is also and alcoholic and is morbidly obese. Her only redeeming qualities are the she loves her children and if you stay on her good side she is a great friend.The daughter that she kidnapped, Maureen, was a underdeveloped. All she wanted to do was live her life, which would only be possible if she could escape Mama Ruby, who has no intention of letting her go, ever. I really wish Monroe would have done more with Maureen characters. Yes, she knew that her mother was a "little" crazy, but she turned a blind eye to her antics, instead pretending that she did not know what was going on.Mary Monroe's writing style is engaging but her writing couldn't cover up what a hot mess this book was.There were jumps in time without any indication that time had passed. One minute Maureen is a baby, then next she is five, then she is 18. It was confusing and took me out the flow of the story often.Monroe wasn't consistent and her ages were off. At one point I pulled out a calculator to figure out how old everyone was and it didn't

match. The dialogue was unbelievable. I understand that the characters are from the south and that because of regional accents some words would have different pronunciations but who was "V-Eight Nam" or "so-wee-side" I have tons of highlights with notes that way "!!!What???" or "WTF". The person that edited The Upper Room should be ashamed of themselves.

- I was on the fence between which Germano book to buy, this one or "Getting it Published." I ended up getting both. Between the two, though, this is the one to start with. Not only did it demystify the process of revising the dissertation into a book, it actually has made me feel much better about my

dissertation itself. It seems that most all dissertations have telltale problems and limitations; Germano is a former book editor at a scholarly press and has seen enough of them to describe them frankly and helpfully. He pegs perfectly the fundamental flaw of graduate education: what you are asked to produce for your committee is not what publishers want. I have often compared my dissertation to the books that I read and felt that it pales in comparison; Germano explains why this is though and maps out useful strategies--planning, conceptualizing, re-writing--for taking your work to the next level. After reading this, I am actually really excited to get into the revising process.
