## **REVIEW OF CCNP ROUTE 642 902 OFFICIAL CERTIFICATION GUIDE**

- Like another reviewer, I read this book and gave it to my children in order of age, starting from the top down. I was amazed they went through it. And it's not even Harry Potter. It was for sure very helpful in getting them to understand they can get into something they enjoy that is what we can afford.

And, if you have kids who are somewhat patriotic, check out West Point. It's totally free. Infact, students get paid! But, it's not for everyone. If you're interested in finding out whether it may be for your kids, I suggest the book "West Point" by Norman Thomas Remick to find out what it's really all about (you'll be surprised it's not just about Army officers). It's America's best kept secret in education. Definitely get "How To Go To College Almost Free", then supplement it with "West Point".

- A truly GREAT cookbook that's been printed with several titles. The basic title is "French Cooking For Americans" but there are several other titles for the same book. Basically it's a collection of his experiences in his mother's kitchen and his recipes for truly traditional old

style dishes. a Great cookbook btw... he was Chef at the Ritz, Personal Chef for President Charles de Gaulle, and inventor

Vichyssoise. [tthackamoretravel.com](http://tthackamoretravel.com). while it lists as "no longer available" it's been and is available as an "out of print book" from a number of amazon vendors
