REVIEW OF SM YOUSAF MATHS BSC

- I love the Charisma Inc. books, and I wish that you had more of them available. It is so hard to find these books, and I wish that I could because I like them a lot.
- I was excited to read this book based on the reviews, my love of

history. I was extremely disappointed. The characters here are one dimensional, uttering predictable catch-phrases, and are basically uninteresting. I got through about 200 pages and couldn't even finish. The main character is incredibly driven, and consequently his reactions throughout the story become entirely predictable. He has no depth and the author doesn't create any kind of sympathy, empathy, or interest between the character and the reader. I really didn't care what happened to him or any of the characters in the book. I think I'll stick with Bernard Cornwell, or Sharon Kay Penman.
