## **REVIEW OF 1996 AP**

## ENGLISH LANGUAGE MULTIPLE CHOICE ANSWERS

- Review of Garden of Shadows  
Reviewer: Shannon Carey from WVHS Spokane, WA  
The Answers to All the Dollanganger Secrets!!! April 12, 2004  
Garden of Shadows is a thrilling novel written cleverly by V.C. Andrews. When I first started this book I couldn't put it down until I finished it. Garden of Shadows was the last book of the Dollanger series although it was the pre-quel to the series. The book was twisted and unraveled a lot of secrets that were kept from the previous books. The other four books of this series were written from her granddaughter's point of view but in this story the grandmother portrayed her part of the story. It gave

more of an understanding of why she seemed so evil. Olivia Foxworth is plain, masculine woman who grows up without a mother, learning nothing of how to flirt or how to be attractive to men. To say the least she had absolutely no social skills so her father tried numerous times to hook her up with young suitors that he knew, but none were drawn to her gawky, tall, anti-socialism, until Malcolm Foxworth. Malcolm shows interest in her during their first encounter and returns for a second, even a third date. After a short week or two of courting he asks her to marry him. Olivia fantasizes of a romantic honeymoon and life thereafter but little does she know of the lonesome future of death, betrayal and scandal that she has coming her way. From day one Olivia began to notice peculiar

things about the handsome Malcolm. When Olivia started to see Malcolm on dates she anticipated a kiss and thought it weird when she never got one. That was the first warning sign she saw of how the relationship was going although she was in denial about it and made up excuses for his "shyness." The next sign she noticed was when she spied on Malcolm (followed by many occasions of her spying on people) asking her father for her hand in marriage when he never once mentioned his love for her. Not until the night of her wedding reception did she take the rose-colored glasses off and realize that Malcolm had not married her for love but for the facts that she would be faithful, she would be getting her father's inheritance and she was to be able to provide him with

healthy children. This started Olivia onto her path of bitterness that would increase with every tragedy and scandal, thus turning her into the stern, hateful grandmother that she became in the rest of the series. Garden of Shadows dished out the secrets of the mean grandmother of the Dollanger's giving a better, but unjust, reasoning to why she had been the way she had. Seeing how Olivia once dreamed of a perfect life with happiness and love is hard to believe from reading the previous books, but bitterness and hatred in her heart is almost understandable considering how Malcolm had crushed all hope of her ever being loved by a man. If Olivia had had a mother things may not of turned out the way they did. To me, it is hard to understand why she never considered

getting a divorce. How could she bear to stand the heartbreak and loneliness? Although we did gain an understanding and history of Olivia, what had happened to Malcolm? How had he become so bitter and cold? I would also of liked to see more of the children's point of view through out the story. Overall, I really

did enjoy this intriguing novel and hope to read more from V.C. Andrews!
