Beginning exploring the globe of PDF Consumer Behavior Solomon 10th Edition Neuralore today and unlock the potential for a richer, much more fulfilling learning experience.

REVIEW OF CONSUMER BEHAVIOR SOLOMON 10TH EDITION NEURALORE

- *****This review contains spoilers*****Other than Harry Potter, popular mainstream fantasy fiction seems to be all but dead. Head to the fantasy section in your local bookstore and what do you see? Hundreds and hundreds of fantasy novels, none of them standing out above the rest. A fantasy novel has to do something to distinguish itself if its going to be noticed by someone who doesn't really care about fantasy, like me. Eragon, with its attractive cover and "written by a kid" marketing campaign, did just that. Overall the story is basically your typical "Seemingly normal man discovers a destiny greater than he ever imagined" type of deal, and make no mistake about it, many of the characters are outright rip-offs from other popular movies/books or boring archetypes. The Brom character is the most obvious of these, being analogous Obi-Wan Kenobi or Gandalf, and Eragon himself may as well be named Luke. In fact, the characters were so cliched that I was actually shocked that Eragon himself didn't turn out to be the son of Morzan, although Paolini only took it one step from that with turning Eragon's eventual comrade into just that. There's many problems with the writing itself as well. First off, Paolini will try to turn something into a "big reveal" that was completely obvious to the reader. Is there a single person who read this book that didn't know Brom was once a Dragon Rider from the first time he spoke? That's related to another problem; stupid characters. Brom tells Eragon that all Dragon Riders can use magic, and Brom teaches Eragon tons of magic, and yet Eragon never asks, or even suspects, that Brom was once a Rider? Please. Some of the dialogue is also cringe-worthy, especially some of Saphira's. Early on it sounds as if she is

trying to make her sentences into mysterious monologues. This is really annoying, although the dialogue does improve over time. That said, the world is rich, and if you aren't really a reader of fantasy but are willing to give something a shot, you will probably enjoy this.

- My two favorite books are Eragon and The Kingdoms and the Elves! I can't wait for Eldest!! Eragon starts when in it he finds a blue stone only its a dragon's egg. Then he gets caught up in the treachery and secrets.
