## REVIEW OF HONDA EU3000IS MANUAL

- I read this book for my senior lit class. I enjoyed it. It was not what I was expecting. I thought that Dr. Jekyll's transformation

was magical but it turned out to be logical and even more enjoyable. I liked it and I would recommend it to other senior lit classes.

- I love this story. For a long time it had been one of those that I "have always wanted to read." Here, Stevenson has beautifully told a story that, really, even in his day wasn't new. The paradox

that good and evil exists in every human being is as classic as the beginning of human history itself; and a phenomenon that has played out throughout history ever since. Far from being unoriginal however, Stevenson has given artful life and breath to this duality through the characters, time, and places in this book. And with this edition, Cricket House has creatively built on the legacy of beauty found in the story.
