For generations, the cozy, standard model of boardroom leadership was

simple: The CEO was also Chairman of the Board, and directors rubberstamped his initiatives. The 2002 Sarbanes-Oxley Act forced radical change on all U.S. public corporations: The board must now hold sessions without management, key committees have tough new independence rules, and all board members now face an unavoidable legal responsibility to provide truly independent oversight of the corporation. Missteps can put companies and individual directors in serious legal danger. The result is an urgent demand that corporate boards develop their own confident, independent leaders from within. But how? That's something that governance expert Ralph Ward, in *The New Boardroom Leaders*, explains in detail. Until now, no one has tracked and

compiled answers to new, basic governance questions. What should a lead director's job description include? Why is a separate chair not necessarily an independent chair? How do you shape an agenda for meetings of independent directors? How do CEOs and the new board leaders divide their roles? How much power should a separate board leader really have? This book answers these questions and more. Companies are scrambling to create new procedures and roles. But there are few job descriptions for these new boardroom leaders—something this book provides, as well as a wealth of insights and tips. *The New Boardroom Leaders* offers the first inside look at how board leaders actually do their jobs, based on extensive interviews and research. The

emphasis will be on practical advice from real board leaders on what worked in their boardrooms, what didn't, and what they expect in the future. It will become a longtime, worthy guide for board members in the new world brought on by Sarbanes-Oxley and the quest for ever-better, and strictly ethical, corporate performance.

Leadership: Three Key Employee-Centered Elements with Case Studies describes three key employee-centered elements (the “employee-centered triad”), which when judiciously and continuously applied, not only improves a leader’s chances of creating a fulfilling work place (a worthy singular goal) but also sets the stage for meaningful and

enduring change. The three elements are Connection, Gratitude, and Responsiveness. Each element is portrayed via a case study. The book is intended to be a guide for successful human relations for all leaders, but especially for those embarking upon their first leadership challenge in professions such as healthcare, hospitality, engineering, manufacturing, and construction. The three elements don't necessarily compose the complete range of employee-centered human-relations behaviors, but they do provide a substantial start on the path to success—a foundation to build on. The book can be used for self-study, for leadership development, or as a textbook.

REVIEW OF THE SIX FUNDAMENTALS OF SUCCESS THE RULES FOR GETTING IT RIGHT FOR YOURSELF AND YOUR ORGANIZATION

- Every now and again I like to have a couple of squares of really good dark chocolate or a split of Asti Spumante. Some women like to go shopping for a new scarf or a purse. I guess it is just one of those "chick" things. Sometimes, I like to curl up with a good romance.A

good romance to me is one where I can become emotionally invested with the characters. It isn't about erotica but some sexual tension is always good. Taking Love in Stride is the perfect little treat I was looking for. I look forward to reading more from Donna Fasano. Now I just need to go out and get some chocolate and Asti.

- There is such a deficit of good modern European novels written by women. Marguerite Duras stands out as one of the best. This short, autobiographical novel tells the story of a girl living in French Indochina and her affair with a wealthy Chinese man. However, what makes this novel so great is not the story but the way it is told. Duras' prose is lyrical and shifts from the first to the third person, moving in and out of her

childhood years to her adult self reflecting on the past. Many passages made me shiver with their poetic beauty, and the end is profoundly sad. Duras meditates on love, death, and her complex relationship with her mother and brothers. Her tangled and often brutally ugly familial relationships should strike a chord with any reader. What I found perhaps most thought-provoking were the passages on being a writer; Duras writes, "Sometimes I realize that if writing isn't, all things, all contraries confounded, a quest for vanity and void, it's nothing. That if it's not, each time, all things confounded in one thorough some inexpressible essence, then writing is nothing by advertisement." If this is indeed the definition of writing, then Duras is certainly a true writer.
