REVIEW OF AMERICAN WAYS THIRD EDITION A CULTURAL TO THE UNITED STATES OF AMERICA

- This novel, written by the mature Jane Austen and published after her death, reveals the strengths of Austen's art. First, she is a careful and exact observer of human character, as compared to those that base a novel of emotion or behavior. Second, she is totally aware of class distinctions and the determinism that is created by a rigid class structure. She explores how character is independent of class but often mistakenly associated with upper

class persons. Third, Austen is also a comedic writer, full of wit and funny portrayals of hypocrites, though many may find fault with my interpretation below since this aspect of Austen's art is rarely discussed. Fourth, Austen carefully portrays the world of 17th century upper class women which could be viewed as oppressive, paternalistic, and deterministic. However she continually portrays women as resilient actors rather than victims. She was a superb observer and interpreter of human character. This is different from those contemporary authors who are more likely to explore emotion and behavior. Character in the work of Austen is destiny and good character eventually leads to better outcomes and poor character leads to worse outcomes. Whereas at times her characters exhibit emotion, they are more likely to withhold emotion and when this withholding is done carefully and discretely, Austen would see this as signs of good character. Whereas she has high regard for honesty, she seems to see honesty as having both a proper method of presentation and to have proper timing in order to have impact. The letter Captain Wentworth writes to Anne Elliott at the end of the novel is a perfect example of suppressed emotion transformed into carefully strategically timed truth-telling. Class differences play and huge role in the works of Austen and Persuasion explores this with the romance of a rich girl of noble family in love with a handsome but middle class young man who both have reversal of fortune and 8 years later re-encounter each other. Anne Elliott is surrounded by a father, two sisters, and her deceased mother's best friend; all of whom use social class as a cognitive short hand for who is worthy and who is not. Anne is the character that can penetrate the smoke of social class to see the true strengths of

character underneath. Interestingly, when *Persuasion* was written, the Napoleonic wars were over and many young men who made their fortunes in the British navy returned with fortunes into English society. Here the new rich encounter the old landed rich, a formula for social upheaval. Austen perfectly articulates this as the Elliott family vacates their ancestral home, Kellynch, and rent the mansion to an Admiral and his wife. Austen was witty and could be considered a comedic writer. Her descriptions of human folly, prejudice, snobbery, and hypocrisy are all skillfully handled. She never preaches. She allows the snob, the fool, the hypocrite to reveal themselves through their

speech and interactions. The outburst of Anne's father, Sir Elliott, upon hearing this his daughter is visiting a sickly poor school friend instead of visiting barely know distant rich relatives is priceless. In summary, Austen's *Persuasion* is a good example of Austen's considerable skill at character analysis and revelation and development of character in social interactions and social contexts. She is delightful to read.

- this book certainly does spell things out in simple form and provides a lot of valuable information particularly to those that don't know much about these birds.
