REVIEW OF SLOTINE NONLINEAR CONTROL SOLUTION MANUAL CUTEFTPORE

- Edgar Allan Poe is regarded as the undisputed master of the gothic horror genre. This collection contains all his published works, faithful reproductions from the originals, that have made him famous. With stories like *The Pit* and *The Pendulum*, *The Tell Tale Heart* and poems like *The Raven*, this book is a must have for any Poe fan or any one who is new to Poe.

- I am a big fan of Preston and Child, both their books written collaboratively and solo. I am currently working my way through every single one, have finished about half, and though I enjoy Child's solo books, as others state here, their collaborative works are just better, for some reason. I liked *Utopia* and *Deep Storm*, but this one was predictable - good and readable, but not very different from what you'd expect. Also as others have said, it was too tech geeky - there needs to be a more human element to the story, and this is where (I think) Preston contributes in their joint books. Anyway, thanks for the fun read, Mr. Child.
