REVIEW OF ANSWERS PROBLEMS MICROECONOMIC THEORY WALTER NICHOLSON

- This book is great and I've not even finished, I see Grace as one of my idols and after reading this book, she seems to be just how I'd imagined her to be. I

love her her expression and the way she talks, she's not afraid to say what's in her head. I love the part where she talks about Jim Morrison, reminds me of a sexual encounter with Ben (Syd Barrett, Pink Floyd) in a infamous book called "Groupie". The descriptions of the things from her childhood, I seem to have gone through the same things if a little less weird. I also loved her seriousness concerning politics and her song "Panda", I also love Pandas I collect anything to do with them. So to find she also likes them is uncanny. The way she worked through the Jefferson Airplane members, excellent. The descriptions. I liked the way that she was given a topic and then had to think around it in the format of her book. I had to get it straight away. Excellent Grace.

- I consider myself a student of leadership having read a number of books on leadership over the past fifteen years. The Rumsfeld Way by Jeffrey Krames is a first class portrayal of leadership at its finest. It's an easy read but Krames does a nice job of outlining key points at the end of each chapter that can be used with one's day-to-day leadership opportunities. The book underscores the little things that make up leadership such as listening before action and assessing a situation before setting a course of action. I found the book builds on our knowledge base of leadership while also introducing a number of user friendly techniques for those opportunities that confront most of us in our daily walk. From my perspective...it's a must read!
