REVIEW OF ENGINEERING SCIENCE QUESTION PAPER N1 2013

- A little too flowery for my taste and not very scientific. Then again what did I expect !!! Easy pros however if you want to learn about anatomy, get an anatomy atlas !!
- Admiral of the Ocean Sea is a terrific effort by an outstanding naval historian. Morison's knowledge of the sea and his personal travels to the lands explored by Columbus add much to the interest generated by this book. Particularly interesting was the review of Columbus' role in history: Forgotten, sanctified, vilified, admired. A must read for anyone interested in one of the great explorers of all time
