The special storytelling design, relatable characters, and plot twists make it a rewarding addition to your bookshelf. So, if you're trying to find a captivating read, Moving Zen Karate As A Way To Gentleness is certainly worth considering.

REVIEW OF MOVING ZEN KARATE AS A WAY TO GENTLENESS

- You are not alone. That is one of the first messages of Senior Choices -- that many senior couples are addressing the same issues of whether to live together and, if so, the pros and cons of being married. There are other nuggets of wisdom in this book as well...for example, suggestions of things to think about, viewpoints of different kinds of relationships. However, to find this wisdom you have to be willing to suffer through a lot of repetition, an arrangement of subject matter that, to me, is disorganized and illogical, and many grammatical errors that will drive you nuts if you have any editing experience. But just take a deep breath and read on a little faster, and you will learn some satisfying stuff.

- This book is designed for two groups of people: pilots who desire to someday fly the 'big ones', and non-pilots who desire to someday fly the 'big ones'. The author provides an introduction to each of the major systems of a large commercial aircraft, and explains how flying large jet airliners is different from flying smaller piston or turbine powered airplanes. The author has taken a potentially very difficult subject and made it fairly easy for the novice pilot (or aspiring pilot) to understand. A very interesting book well worth reading, and a must have for all you 'wannabe' airline pilots. (This is a review of the first edition).
