REVIEW OF LAPTOP REPAIRING GUIDE

- This book was in Spanish. I think it should have been more clearly marked. It was delivered quickly and was in good shape though.
- This is an excellent and unusual novel which chapter by chapter and layer by layer exposes the history of a fictional Vermeer. Each layer of the story is unique and interesting and keeps the reader guessing as to both the authenticity and origin of the painting as it is passed from owner to owner. The language of the book is fluid and the concept a refreshing change of pace.
