LAST IDEAS

Overall, our company believe that Household Indebtedness And Its Implications For Financial deserves a read, regardless of some small imperfections. The special storytelling style, relatable personalities, and plot twists make it a beneficial addition to your bookshelf. So, if you're trying to find an exciting read, Household Indebtedness And Its Implications For Financial is definitely worth taking into consideration.

REVIEW OF HOUSEHOLD INDEBTEDNESS AND ITS IMPLICATIONS FOR FINANCIAL

- This excellent tale of revenge during the post-Napoleonic era is familiar to many through the abridged, 72-chapter, version of the story. While I did read it, like so many others, there were a number of plot holes in it, which made me wonder, "Is there a complete version of the novel?" After reading a review on this site, recommending the uncut 1462-page version of the adventure-mystery yarn by the best-selling playwright and author of "The Three Musketeers" and its sequels, I figured, "I'll definitely give it a shot." Rated PG for thematic elements and mild violence.

- After watching the movie and then finding myself compelled to read the book, I wrote a review for the DVD version of this great classic by Alexandre Dumas. I did give the adulterated movie 3 stars, even with its deviation from the far superior storyline of the novel (this story does not lend itself to being told in a 2-hour movie). But rather than 3 stars, the book is well deserving of 5, and then some. The tale of the Count is one of heavy, dark intrigue. This is not light reading, and the story will tax your patience and demand of you significant time and concentration if you are to mine its riches. Those with an attention span of a six-year-old need not apply, although any person, young or old, who yields to the lessons being lived out will come away from this book with impressive knowledge regarding the pitfalls of willful ignorance, deceit, and pride; and hopefully a better appreciation for justice, compassion, and love. As for the story itself, Edmond Dantes, a young man of considerable good character, finds himself wrongly imprisoned under dreadful circumstances. He eventually is tutored in prison by a man with extraordinary wisdom—just as the reader is tutored without realizing it as he reads the unfolding chapters. Edmond loses all, gains eternal wisdom and insight, and then begins his true journey into lands where friends and foes experience his heavy influence. The story is one of desperation and deliverance, defeat and despair, and ultimately of triumph at an awful cost. Spiritual applications abound throughout as learned from within dungeons to palaces, and our notions of justice and mercy are sorely tested as a wronged man loses all and then begins to execute what he considers to be, and may well be, God's judgment. If you dedicate the time and attention that this book deserves, you will not be disappointed. If you want to speed-read and add another title to your library card, you will miss the worthwhile messages that this book can bring to the soul. I say soul, but for those with spiritual understanding, the better term is spirit, for this is above all a spiritual book. The movie alludes to it; the book embodies it. Having now read the book and carefully endured the more tedious portions to

ensure that I missed little, I can only say that we do ourselves much disservice by not committing the time to study works such as this. Love, hate, revenge, mercy, justice, and forgiveness are explored in detail in the lives of Edmond Dantes (the Count) and his friends and foes. This complicated novel is unbelievably rich in its timeless spiritual lessons.
