REVIEW OF CIMA E1 STUDY NOTES 2013

- The authors of *Inherit the Wind* have done an admirable job in creating a gripping story that can hold the attention of the toughest critics -- high school freshmen like myself. The story, based partly on the

real-life Scopes Monkey Trial, is nevertheless a fabrication of the author's mind, and anyone who decides to read this book should keep this in mind. However, this book does for literature what Disney does for cartoons. I invite you to check it out.

- I recommend this book to anyone who even likes fire trucks a

little bit. It has over 85 awesome color pics of all different kinds of fire trucks in every color imaginable. I especially enjoyed the section on special units. Also, there are sidebars covering such topics as quints and squad companies. Also, if you like this book, be sure to check out "Fire Trucks In Action" by George Hall- They're both great books!
