REVIEW OF FOUR PLAYS THE CLOUDS BIRDS LYSISTRATA FROGS ARISTOPHANES

- There are a number of sociolinguistics/language in society textbooks out there, but they are either too simple or not comprehensive enough or formatting in such a way to make them hard to read. Introducing Sociolinguistics by Mesthrie et al. fits the bill better than any other books I've seen or used for advanced undergraduate or beginning sociolinguistic courses. I like it because it covers an impressively wide range of topics and because it has an open format, with lots of maps and/or diagrams that make the text easy to follow. But it isn't just a picture book. The book treats its subject in sufficient depth for the levels of students I've cited. I've just started to use it as a textbook myself.

- I decided to read this book after considering the many positive reviews along with the accolades of several independent book sellers. I shouldn't have. I'm not going to say this book is bad, but it's certainly not anywhere near being good either. This book is a self-described manifesto, which it is not. It is the inane ramblings of someone who does not suffer from lycanthropy. It is dysfunctional, poorly written, and is essentially about nothing at all. I liken it to a Seinfeld episode, in print form, but without the distraction that comes from actual humor or entertainment value. In hind site, I'm starting to wish Klosterman did suffer from lycanthropy. If you don't believe me, I will let a Chuck Klosterman quote from the book serve as a one line synopsis: "Do you not see what I am no longer not saying to you? If so- congratulations!"
