## REVIEW OF A LEVEL MATHS FROM THE RIGHT ANGLE AQA

- I really liked the book! It is about a futuristic town. The author wrote it so well that you won't be able to put it down. It is about an 11 year old boy who is worried about what job he will get when he turns 12. It was hard at first to understand the way they speak, but I got used to it by a couple of chapters. The only thing I did not like was the ending. The last couple of chapters did not seem like the character would do something

like that at all. Then the last page did not make any sense to me. The end was a little disappointing but it is definitely worth reading!!!

- I first read this book when I was in middle school and I absolutely loved it. It was nothing like any other book we had read. It was a book that made you think about society and conformity. I recommend this book to my friends and have bought several copies to give to them as gifts. It was one of the few books that stood out from all the books I ever had to read in school, along with Fahrenheit 451. Please give the gift of The Giver.
