## REVIEW OF MARY QUEEN OF SCOTS AND ALL HER GHOSTS

- Last year as a Freshman in high school I was assigned to read this book as a class project like many of the other critics who have already written their critiques. Although I must admit that the book was in reality flat out boring and totally lacking in point I would not recommend giving up on Dickens because of it. I can not with any honesty recommend this book to anybody but I would eagerly recommend Dickens.
- Prof Raynes, who is a well known

practitioner in this field has distilled his knowledge and insight to publish this book. I am a student in the class that he teaches at Baruch College, CUNY and the classnotes which are so well written have been incorporated in the book. Prof Raynes emphasizes why structured finance is so different from corporate finance and that realization is critical to understand the flaw in the methodology

followed by rating agencies while rating structured securities. The book also has considerable and necessary numerical procedures required in the analysis. My only comment that while the book is invaluable as a reference, it would be more useful as a textbook if future versions include end of chapter exercises.
