## **REVIEW OF SPACE MISSION ENGINEERING THE NEW SMAD**

- This account of urban life was very tough to contemplate. The only solace for me was knowing that the two children who were not lured into the drug culture were inspired instead by a mentor at school. This is encouragement that perhaps I can make a difference in my role within the public education setting.
- "The necessity of shunning prolixity forbids my setting down all things." So writes St. Augustine in the "City of God" book 12, chapter 14. The great saint - perhaps having long held back his

answer to sundry pagan attacks - erupts in a volcano of words, and as much as any single theologian, very nearly has set down all things in defense of the Church. The focus of the first part of the work (chapters 1 through 10) is primarily on responding to the claim that Christianity is to blame for the sack of Rome by Alaric in 410. He provides many examples of Rome being cursed before the spread of Christianity, and many examples of it being blessed after Christianity - not least of which the mercy shown by the Visigoths to Christians seeking asylum in churches throughout the city: nearly all were left unmolested, while pagan temples were toppled. St. Augustine also points out the inconsistencies and logical errors in pagan writers and philosophers like

Porphyry, Cicero, Varro, Seneca, Lucan, and others. In the second part of the work, St. Augustine puts forth his theology of two cities, the city of God and the earthly city (I don't believe Augustine ever uses the term "the city of man.") Catechized Catholics will recognize the two cities as the Church Triumphant (along with the Church Suffering; i.e., Purgatory) and the Church Militant and the temporal world it inhabits. In book 12, chapter 3, Augustine defines one of the theological jewels of the Catholic Church - the doctrine of the origin of evil. He explains that God did not create evil, but that through free will mutable natures can become corrupted. He builds on this doctrine through the next three books. C.S. Lewis gives a wonderful synthesis of

the doctrine of evil in "Mere Christianity", but it is from Augustine that he borrows much of that thought. The following books, 13 - 22, were a pleasant surprise, being exegesis of the Old and New Testaments to explain the origin, nature, and final end of the two cities, beginning (appropriately enough) with Genesis and ending with - what else - The Apocalypse. This edition from The Modern Library is attractive, sturdy, and very well made. I do have a few comments on the translation by Marcus Dods, a Protestant. First, every use of the word "catholic" is lower case. I know that there are two meanings, one meaning "universal" and the upper case denoting the Church itself. However, there are instances where the clear use

of the term by St. Augustine is "The Catholic Church" - no there weren't Protestants at this time, but there were Arians and Manicheans and other schismatics, and the author is clearly trying to make a distinction from these to the true, or "Catholic Church." A more obvious case of ignorance is in book 22 chapter 7, the second footnote referencing Isaac Taylor's "Ancient Christianity": "In the Nicene Church, so lax were the notions of common morality, and in so feeble a manner did the fear of God influence the conduct of leading men, that, on occasions when the Church was to be served, and her assailants to be confounded, they did not scruple to take upon themselves the contrivance and execution of the most degrading impostures." I tracked down

Isaac Taylor and "Ancient Christianity" and it's laughably shallow in its understanding of Catholicism. Just scanning through it, one finds gems like the following: "Every right-minded traveler in Spain, Italy, Ireland, and even in the more enlightened quarters of Romish supremacy, has been compelled to allow that popery, as to the vast majority of the people, is nothing better than a gaudy polytheism.... this same worship of demons, in all its elements, such as invocation, votive offering, veneration of images and relics, pilgrimages, tutelary dedications, and miraculous attestations." With such blind adherence to fables about the Church, is it any wonder that the whole world - Protestant and Catholic - is falling away? Taylor, by the way, was trying to square

the use and verity of the Early Church Fathers while at the same time denying Rome and the Catholic Church. The twist people can get themselves in when they try to affirm only a part of the Truth."The City of God" is not a trivial undertaking, but I don't think readers should shy away

from it. It's not inaccessible as much as it is thorough. St. Augustine was not one to give way to ambiguity on any topic. I enjoyed this book a great deal, and have a sense of accomplishment having worked my way through it.
