REVIEW OF MOBY DICK OR THE WHALE HERMAN MELVILLE

- While some readers may believe Worlds' End may not be as entertaining as other volumes because Dream and the Endless are only briefly shown, Gaiman spins another yarn of a tale and what may not seem to be about Dream actually is. A large collection of characters from different worlds are drawn together at a tavern called Worlds' End. A large "reality" storm brings these travelers together to the tavern, where the many different characters tell tales to pass the time. These tales include "a swashbuckling adventure, a sea story, a gangster story, a grisly boys' funeral story, and even a little ghost story." Each of these tales is unique and a splendid read, but the funeral at the end is big (and explains the reality storm), and it is clear Gaiman has drastically changed the Sandman series and is setting up the reader for a monumental volume to follow.

- An excellent example of Neil's work. A wonderfully told tale about telling tales. Mr. Gaiman utilizes the "frame story" to such advantage that the audience is often so lost in the multifaceted worlds that one forgets that they are reading at all. Truly masterful.
