### **REVIEW OF TEMPLETON PLAN 21 STEPS TO PERSONAL SUCCESS AND REAL HAPPINESS**

- This eagerly awaited book has finally arrived! Best of all, it is specifically directed to those of us who own and you use one of the Meade ETX scopes. It is an essential tool/accessory for anyone who uses an ETX to view the universe, and I'm sure others will no doubt find it helpful, as well. For those of us familiar with Mr. Weasner's site on the Internet, we all know that it is an invaluable source of information for any amateur astronomer, regardless of level of experience or equipment used. There is something for everyone, from the very first-time night sky watcher, to the novice beginner or the advanced user of the most complex and expensive gear available. As many times as I will

return to that web site, now I have a handy, well organized, clearly written and equally useful compendium of information that I can carry with me and read anywhere at all (without having to download page after page and print, to bring with me in the field, or elsewhere). Great features are the wonderfully organized table of contents and useful index to quickly locate the kinds of things I want to know while using the book as a reference, whether away from the scope, or actually out observing the stars and celestial bodies, etc. The book is a "fast read" if you choose to 'devour' it that way (I did!) Thanks Mike!!!

- Several years ago and still today, the term sexual abuse was not talked about in the African-American community. NO SECRETS, NO LIES: HOW BLACK FAMILIES CAN HEAL FROM SEXUAL ABUSE by Robin D. Stone, a survivor of childhood sexual abuse, is a book that discloses the actual stories as told by the victims. In each chapter, Stone provides us with self-help instructions in overcoming such a devastating act of violence. In most cases of sexual abuse, the victim is ignored or made to believe that what happened was just their imagination. Children are easy prey because the perpetrator can easily entice them with money, candy or toys, etc. The perpetrator can be anyone - a family member, the next-door neighbor, a school employee or the well-respected member of the church. Threats of bodily harm to the victim or members of his/her family, aids the perpetrator in committing this violation. We are all under the assumption that only women are sexually abused, but there are a vast number of men who are abused by men and in some cases women. Most males do not report that they have been abused because of the

label placed on them by society as growing up and becoming gay. They also deal with issues concerning their masculinity and have feelings of being inadequate and vulnerable. Once a victim has revealed that they have been sexually abused, some are shunned by family members or made to feel that what happened was their fault. Victims with understanding family members, such in the case of Ms. Stone, sometimes years later, still suffer from being abused. Through Stone's self-help guides at the end of

each chapter, and each survivor that shares their story, victims of sexual abuse will understand that what happened was not their fault. This book was an eye opener for me because it brings to the forefront the effects that being sexually abused can have on the victims. Even after the abuse has stopped, victims continue to suffer. NO SECRETS NO LIES: HOW BLACK FAMILIES CAN HEAL FROM SEXUAL ABUSE was very informative and lists many resources for use by victims of sexual abuse.(...)
