## **REVIEW OF PHYSICAL SCIENCES EXAMINATION GUIDELINES GRADE 12**

- I have now read all three of P.F. Chisholm's novels chronicling the adventures of Sir Robert Carey, "the Elizabethan detective" and I await with the next installment with anticipation. Based on a real historical figure in the 16th century, Sir Robert Cary is part Cary Grant, part Harrison Ford, a charming courtier who, despite being a cousin of Queen Elizabeth, has trouble staying out of debt and on the right side of the law. All three books in the series are highly readable and recommended for fans of historical fiction, as well as anyone interested in the Anglo-Scottish border "troubles" of the 16th century.

- Although a detailed, intricate novel filled with a variety of characters, this one has one slight problem: NOTHING HAPPENS. I think the series needs get focused on what made it great: the main characters of Rand, Matt, and Perrin. Then, Jordan needs to conclude the series by getting back the vitality of the earlier books. Don't turn this series into a neverending Encyclopedia Brown mystery
