LAST THOUGHTS

On the whole, our team believe that Introduction To Heat Transfer Incropera 5th Edition Solution deserves a read, despite some small imperfections. The unique narration design, relatable personalities, and plot twists make it a rewarding addition to your bookshelf. So, if you're searching for an exciting read, Introduction To Heat Transfer Incropera 5th Edition Solution is most definitely worth taking into consideration.

REVIEW OF INTRODUCTION TO HEAT TRANSFER INCROPERA 5TH EDITION SOLUTION

- I have never been a huge fan of fantasy books, but I bought this for my teen-age son...and I ended up reading it for myself. Yes, there are a lot of places where you could say '...hey that sounds like a scene from...' but as a huge fan of great story telling, I was captivated by the characters and how they developed...despite similarities between Lord of the Rings, Harry Potter and many others. Remember this book is written for young teens and has well-written, short chapters. The book is long, but because of the short chapters, I found it hard to put down. I disagree with the person who wrote a review stating they are a professional editor and spouted off a litany of "errors". WHO CARES!!! Nobody (average Joe/Jane reader) thinks about those things when they are reading unless the story is so poorly written. I just think you can't argue with the New York Times Bestseller list. (They say this is the Number 1 children's book as of Sunday 2/8/04) I think this book shows tremendous talent for a 15 year old (at the time he began to write ERAGON) and I will look forward to the second installment to this trilogy. My advise...stop being so critical and just enjoy reading this book...just ENJOY reading...PERIOD!

- This is a smart looking dossier with plenty of entries to last you a long time. There are fields on each entry for Brand, Size, Where Purchased, Price, Box/Individual, Time Smoked, Date, Rating, Last Meal Eaten & Time, Wrapper, and of course a Comments section. There's even a place to put the bands from each cigar. I've only just started, so I'm not sure if adding the bands will make the journal thicker than the binding. Use a glue stick instead of tape, and you'll be able to fit more. The only thing it lacks is a "Country of Origin" field. But the Comments section is big enough to include that if you like. All in all, a great buy. Recommended with 5 stars.
