• I teach business writing in industry and government, and I recommend the Gregg Manual enthusiastically in all my programs, at every level. There are a lot of wonderful resources out there, including Albert Joseph's classic EXECUTIVE GUIDE TO GRAMMAR, that can help you understand what makes our language tick, but there is nothing like Gregg when you need an authoritative answer NOW to a specific (even picayune) question. And it's striking to see how EXCITED seemingly well-balanced people from all walks of life can be when they first get their hands on Gregg. After reading the other reviews here, I am even preparing to do the unthinkable and buy a new copy - just to see what the new edition has to say about computers (my copy is a little old...).
