## REVIEW OF HANDBOOK ON MINE FILL

- It is accurate! Yesterday I graded a coin VG 8+ in less than a minute it is easy to use and the descriptions are great. The only thing is it is not in color which makes it harder. All together it is a wonder full book!!!
- I was assigned this book for school. It was one of the better books that we have been assigned to read, but I didn't enjoy it as

much as I have enjoyed other books. I felt that this book was well-written and it wasn't terrible to read, but it didn't really make me want to keep reading. Adam's character was very relatable though. I think that it was because he was around my age and he went trough some of the same problems as people our age go through. Such as his relationship problems with Ruth. All in all, I feel that this book was okay, if you like historical books. I personally do not.
