REVIEW OF USER MANUAL FOR ZTE U X85

- I believe this book should be a mandatory read For high school history class. Humans do terrible things to humans Now and in the past. It may make you uncomfortable to read this book But some parts may warm your heart
- This book seems quite modern in its style and content. I have heard that it was the best selling novel by an American author in the 19th century. The book was written and distributed before the civil war occurred and was read by Northerners and Southerners alike, also by Europeans. Many of the characters seem like stereotypes but It is written for the thinking person. Many of the problems of families of undocumented workers and the people that help them are being faced or ignored by society and government today. Today it is hard to imagine a slave child being sold and separated from his mother, but it is not so hard to imagine the desperate mother going to extraordinary measures to protect her child.
