REVIEW OF TEACHER CREATED MATERIALS INC HIDDEN MEANING ANSWERS

- I have read through this history book and I have found it wanting. However, I have also acquainted myself with some other History books and they are lacking in vital information. I feel as though this book, while biased, presents a fairly accurate portrait of American history, and I was satisfied with it. Anyone who purchases this, or any other History textbook will want to check the information presented against Historical documents to get the most accurate information available. I can recommend 'Pilgrims Plantation' which is actual documents recorded by the Separatists

for a start, and letters from John and Abigail Adams to each other. This History book did align rather well with those. One reviewer left a rather angry review of this book, and I can understand. No one likes books that are biased. However, all history books are biased,

including the documents we have to compare them to. That said, this book is just fine.

- another successful amazon book order for me...seems to be the sure way to go when looking for hard to find books at great prices
