Remember, reviewing evaluations can aid you make educated choices regarding what to review next and can expose you to new writers and styles you might not have actually thought about in the past.

REVIEW OF NIKON F100 REPAIR MANUAL INNEU

- Is our children learning? They won't be, if we continue to force them to read this incredibly bad book. Basically, Jim the Boy is about Jim, some boring pre-adolescent who lives in North Carolina and does not have a father. Jim was raised in the West. The west of North Carolina. It's pretty close to California. In more ways than Washington, D.C. is close to California. Thus, it is very difficult for Jim to put food on his family. This is an extremely boring premise, and the book sort of shoots itself in the foot with this purposeless setting. However, do not underestimate the author's propensity to write a bad book: the setting isn't the only bad thing about this book. For one, the dialogue is simply atrocious. It basically goes, "... Uncle Bob said"..." Jim said"..." Uncle Al said"..." Jim said. The fact that the characters always "say" something, and the fact that the dialogue is so bloody boring (think of a conversation between two adults about what

they're going to have for dinner tomorrow) is horrible. In addition to this, there is hardly any character development at all - all the characters are so mundane, and so indistinguishable from each other, that I really didn't give a damn when something bad happened to one of them. Or when something good happens to them. Thus, when this book was supposed to put a smile on my face, I could only frown, frown from the interminable boredom that is this book. The fact that this book relies on facts ... says things that are not factual... this is going to undermine its campaign. I think we agree, the past is over. If you're sick and tired of the politics of cynicism and polls and principles, come and join this campaign... this campaign to boycott Jim the Boy! ...

- If you've read anything else, don't get this book. The information in here is SO general that it could be applied to just about anything. The book lists quick explanations of what will happen, but no information on how to respond to what you'll experience. Additionally, there were frightening statements in this book letting me know the author was no expert on the subject of baby rearing. I was exasperated to read her thought that babies should usually be placed in the backseat of the car. I think that everyone knows that is the ONLY place to put a baby in the car. Though, I'm afraid unknowledgeable people will read this book and think it's ok to do such things as put a baby in the front seat of the car. If you've read ANYTHING else, you don't need this book. In fact, if you haven't read anything else, you still don't need this book. Don't waste your time or money.
