REVIEW OF MANAGING SOFTWARE PROCESS WATTS HUMPHREY

- I have recently read "The Tragedy of Romeo and Juliet" in school. I enjoyed reading this play as I felt it provided me with a different outlook because of its vocabulary. The plot of the story was very romantic, but in the end the play became dramatic. It tells a story of true love between two resented families, Montague and Capulet. Romeo Montague and Juliet Capulet risk their lives to be together and nothing could get in the way of their feelings of true love. Even though their families hated each other, they still found a way be married, although it was not easy because of all the tragedies throughout the play. Romeo's best friend, Mercutio and Juliet's cousin, Tybalt both died. Also, Juliet's father was forcing her to marry Paris, another man. There were many more tragedies, which kept the two lovers away from each other. The name of both houses was the main reason why Romeo and Juliet could not be together. As Juliet said, "What's in a name?" If it were not for the significance of the names there would be no tragedy. Without William Shakespeare's acts of irony, love, hate tragedy and pride the story would not have been worth reading. The way he twisted the story when they got married was unusual too, as getting married can make life different in a good way, but in this story, not.

- There are no better men than Ted Wong (Jeet Kune Do) and William Cheung (Wing Chun) to demonstrate their respective arts in their purest forms. The book does an incredible job of directly comparing the applications of JKD and Wing Chun through a great integration of text and photos.
