REVIEW OF FICHE TECHNIQUE AUTO RENAULT

- Two years ago I went into the water business selling a medically approved Japanese water treatment system. I started studying every thing that had to do with water and the more I learned the more I got excited and intrigued by this mysterious

element. Yes mysterious!! The earth is 75% water our body is 75% water in fact life wouldn't exist without water and yet no one really knows where it comes from and it is only in the last few decades that scientist are trying to decode this phenomenal element. Do you know that there are different types of water? Do you know that your mood can change the structure of water? Do you know that most of the waters you drink can be harmful to your health and yet water is the most important thing for your health?? Water is so common in most part of the world that we don't think twice about it, we take it for granted, but not for long. In the last two years I read countless books and scientific documents on water but it wasn't until I read the book " The Hidden Messages in Water" by Masaru Emoto that truly initiated an irrevocable passion for this fragile yet powerful life giving element. Dr. Emoto is a pioneer in water research and his discoveries are absolutely remarkable, almost science fiction, like the idea of going to the Moon 100 years ago. Dr. Emoto's discoveries and theory combines science and spirituality in an enlighten way concluding that "Water is the bridge to the Divine". Read his book and you'll understand why. A must read!!!Your Body's Many Cries for Water: You're Not Sick; You're Thirsty: Don't Treat Thirst with Medications [YOUR BODY'S MANY CRIES FOR WATER]The Enzyme Factor

- Mika's books have been a repeat favorite of mine for many years. Although the titles may appear to be of a mold and rather boring, the stories are anything but. My favorites are the Egyptian, The Wanderer and The Adventurer. Wonderful historical flavor
