## **REVIEW OF MODERN**

## **OPERATING SYSTEMS TANENBAUM SOLUTIONS MANUAL**

- All that stuff about Peter Wiggin getting the world by the tail by posting on the Internet. It's just stupid. What would really happen is Peter would post something, then scores if blowhard nitwits would excoriate him and call his mother a female dog fertilized by a chicken. Nobody would take it seriously at all except the stupid people posting, like Peter, but lots of typing would happen.
- Rohinton Mistry posits that even in a society in which the government is corrupt and the poverty level in inhumane, small decencies still exist - decencies that promote humor,

compassion, and a bittersweet degree of compassion and tenderness. Family Matters is set in Bombay in the 90s. The deterioration of the city is paralleled by the physical condition of an elderly professor with Parkinson's disease. Set against the horrors of overcrowding,

family secrets, tensions between the various family members, Mistry fully explores the tightrope walk that constitutes just getting through life for most people in the world - yet he does so with humor, tenderness, and a haunting feeling of love.
