#### **REVIEW OF CISCO IOT NETWORKING CISCO GLOBAL HOME PAGE**

• You will find no nine eyed purple Martians attacking planet earth in "Dune", but human fears and desires in extraordinary circumstances. Deeply psychological, intricate relationships and power plays give this book a unique flavour. I especially liked the separation of a human from an animal by the ability to stand immense pain, and overcome the urge/reflex to withdraw his hand from a "pain box" - i.e. placing the will before the instinct. Do read this book (not once, but several times), and see if you also yearn for the "spice" - that mother of all hallucinogens found only on Dune that allows clairvoyance - among other things.

• I put this book down the first time I attempted to read it simply because the first book had such a triumphant ending that the dark nature of 'Dune Messiah' just didn't work for me. I had attempted to read this book just having completed the first one. My second attempt came two months later and this time I read it entirely in a matter of days. I'm glad I did. 'Dune' is an epic in every sense of the word. 'Dune Messiah' is anything but an epic. It is a singular story dealing mostly with the inherent problems of religion and politics becoming one. Paul struggles with the consequences of the jihad yet feels powerless to stop it. He is nothing more than a figurehead to his Qizara and wants to be free of this and the burden of prescience. I don't wish to give anything away but this book is worth reading if only for the fantastic ending. And by the way, 'Children of Dune' is a return to the epic style with which 'Dune' was written.
