REVIEW OF ADVANCED DAY PLANNER USERS GUIDE

- This volume on the Presidency of Bill Clinton does not always adhere to the high standards set by Facts on File. This work is definitely a hagiography, but this is not the problem. Presidents deserve respect, if at times only by virtue of their office. The fact is that Mr. Clinton was a very controversial president, who did some very controversial things. Ms Warshaw fails to explain in a satisfactory manner why many Americans opposed his presidency. The entry on Ruth Bader Ginsburg is a prime example. For better or for worse, Justice Ginsburg is one of the most liberal members ever to grace the Supreme Court. Yet the author never once uses the word liberal, instead employing the term conservative in impressively creative ways to characterize her politics. The same applies to Jesse Helms. The reader is left with the impression that this is a man nobody could possibly vote for, yet he is still revered by many. Only the most politically astute readers will recognize the author's sleight-of-hand tactics. The author's agenda will be lost on this work's intended audience: students. Similar examples abound throughout this work. The real problem with this work is that the author goes beyond being respectful. The author goes beyond even hagiography. Ms Warshaw is engaged in nothing short of partisan advocacy. If today's young people become liberals or Democrats it should be because they read materials from a multiplicity of viewpoints and reached informed conclusions. It should not be because they were only presented with one point of view.

- Charlie Papazian started the revolution of homebrewing with this book. After you read it, you will know why. Cheers to Charlie!
