And if you ever need help discovering the excellent book, our well-informed team is below to supply customized referrals.

## REVIEW OF BLUE BALLOON THE HOURGLASS SONG ROBBY BENSON YOUTUBE

- I was hesitant to read this book because I had seen the disastrous movie several years earlier. However, I can testify that David Lynch made absolutely no effort whatsoever to turn the book into a script. He just filmed portions of the book being "acted out", almost at random. The result: surprise...the movie made no sense. The book is quite a masterful piece of writing, describing an outer space society that has a fully explained economy and political structure, all while maintaining a good pace given the inherent dryness of many of the topics involved. Subsequent attempts to make a decent movie from the material also failed...but it remains a very good book.

- I guess it's just personal taste, but I'm sorry to say that I did not really like Dune that much. I really wanted to; I know it has a great reputation, and legions of fans who have read it multiple times. I just finished reading it last night. The overall setting and the complex story were fine. The opening scene, the visit from the Reverend Mother, was intriguing. But, somehow the writing style for the rest of the book just didn't click with me. You know how some books have wonderfully-crafted language and sentence structure that mesmerizes you? Well, this book was not like that. Time and again I found some passages awkwardly worded. As well, while there was a great assortment of characters, I felt no emotional attachment to any of them. I had previously read a couple of Herbert's sci-fi novels, and liked them, but this one, well, doesn't get 5 stars from me. Your mileage may vary...I won't be reading any of the remaining books.
