REVIEW OF BARD HVAC SERVICE MANUALS

- I have been a Nevil Shute fan for a long time. Many have never heard of this author. This is one of my favorites along with "A Town Like Alice" and "Trustee From the Toolroom". I'm glad to find it in print again so I can replace my very tattered copy and get my 16 year olds to read it!
- This is the book I hear a lot of home brewers recommend. In fact it came with my beer making kit at a local shop. I've read this book cover to cover and found it fun to read. I've made several batches of beer with the aid of this book and have never made a bad batch yet. The book is simple to understand, including more advanced subjects as mead making and making your own malt.
