**REVIEW OF MEDICAL TERMINOLOGY FOR HEALTH PROFESSIONS ANN EHRLICH**

• This is the book in middle school that made me want to write, which I do very successfully today. Written for younger readers, it does not patronize or preach, but respects young hearts and intelligence. Full of pathos and humor and action and a moral about acceptance, kindness and 'doing your own thing' - most of all about familial love, families both born and chosen. Simply and beautifully written, I found a hardbound copy on a bookfinder site many years ago and paid FAR too much for it, but it was special to me, and my sincere hope is that it finds a new audience in every young generation.

• I enjoyed this book, but it is not as good as the others (Jodi Picoult) books I have read. It did not really keep my attention. I loved the fact that it was about faith, believing, understanding, love and guardian angels. It just seem kind of long and drawn out.
