I did not see it coming. The book did not make sense after finishing the book. I felt like I was tricked. Spoiler alert - how could Samantha be Cecily? There were no clues and it was like I was looking at two different people. It did not make sense. Samantha never acted like she knew

Gabriel. It was all business. I am just really upset because the book was so good and had to be ruined by the plot twist. I felt she only cared about herself. He was looking all over for her and she continued to trick her. I will never read another book by this author again. She ruined a perfectly good book.

- It was a big disappointment! I thought it would be good, but it was boring and confusing. I consider myself a good reader, but this book took me forever to finish! Please trust me and don't waste your money on this horrible book!
