continúan atrapados en su escondrijo:
"La Tortuga". ¿Estarán a salvo o les
seguirá acechando el mal? Mientras

tanto, Sellenne cometerá un error

The demands of today's society for greater specialization have brought about a profound transformation in the humanities, which are not immune to the competitive pressure to meet new challenges that are present in other sectors. Thus, lecturers and researchers in modern languages and applied linguistics departments have made great efforts to design syllabi and materials more attuned to the competences and requirements of potential working environments. At the same time, linguists have attempted to apply their expertise in wider areas, creating research institutes that focus on applying language and linguistics in different contexts and offering linguistic services to society as a whole. This book attempts to provide a global view of the multiple voices involved in interdisciplinary research and innovative proposals in teaching specialized languages while offering contributions that attempt to fill the demands of a varied scope of disciplines such as the sciences, professions, or educational settings. The chapters in this book are made up of current research on these themes: discourse analysis in academic

and professional genres, specialized translation, lexicology and terminology, and ICT research and teaching of specialized languages.

REVIEW OF ELEMENTALES LOS

- Hoare's book is of exceptional importance precisely because it is not part of the propaganda war that is taking place outside Bosnia's borders about Bosnia and its recent past. Rather, it represents an attempt to explore, without succumbing to the two dominant stereotypes of 'Islamic fundamentalism' and 'multi-ethnic Bosnia', how and why a war that began as a defence of Bosnia ended as a Bosniak struggle for survival... In his introduction to Hoare's book Brendan Simms, author of the best analysis published thus far of British diplomacy regarding the war in Bosnia-Herzegovina, says that he wishes he had been in a position to consult the work when writing his own. Hoare's approach to Bosnia differs from that of participants in, or witnesses of, the events that he covers; but his advantage lies in the fact that, being neither, he is not a prisoner of memories. The idea that the war should end without a victory was certainly not Bosnian, but his book explains the circumstances that led it to be accepted at the very point when the

Army of Bosnia-Herzegovina was poised to win the war, leading to the surprising conclusion of the war ending in neither victory nor defeat. His research is important for all those who in their different ways are involved with Bosnia, but it is only a Bosnian translation of the work that will permit a critical reading of

it, by counterposing the Army of Bosnia-Herzegovina's own image of itself with that reconstructed by the British historian. Gordana Knezevic
