REVIEW OF MIKCELLERS BOOK OF BEER

- I had high hopes for this book after reading the reviews. Unfortunately, my hopes sank after the first couple of chapters. "Seduction by the stars" is simply boring pop astrology. For one thing, I am a bit tired of hearing that Taurus is predictable in bed and prefers the missionary position. What a stupid generalization and superficial judgement. First of all, everyone who knows the slightest about astrology knows that the sun sign is only one aspect of the complexity of a whole human being. One must take into consideration ALL aspects in each individual's birth chart (planetary positions according to time of

birth, location, etc). I am a Taurus, and I am not fat, nor gluttonous, something the book really harps relentlessly on. Every Taurus person's heart is reached through their stomach, according to the book. I find that absurd and bordering on insulting. The author relies on outdated concepts, insipid anecdotes, and personal experience/preference rather than deep study and understanding. This book was put together in a hurry

to lure the curious and make a ton of money - regrettably undeserved. Do not waste your money or time on this amateurish astrology book. Try instead the insightful and no-nonsense writings of Carol Allen.

- It is damn good book worth reading in terms of range and depth it covers.
